EDUCATION

Tula's Institute **Dehradun, Uttarakhand, India**
B.Tech in Computer Science and Engineering *August-2025*

- Coursework: **Core Subjects, Specialization (AIML).**
- Technical Focus: DSA, OOP, Java, **AI-ML, Neural Networks, Deep Learning,**

WORK EXPERIENCE

World Startup Tapri **Remote**
Web Developer *July 2025 – Present*

- Reviewed, proofread, and rated AI-generated responses across technical and general domains.
- Designed and developed responsive web pages and platform modules for student-led startup discovery and collaboration.
- Built frontend components using HTML, CSS, JavaScript, and React.js, optimized for cross-device compatibility.
- Integrated Firebase for real-time database operations and user authentication.
- Collaborated with the core team to ensure consistent UI/UX across dynamic content and startup listings.
- Participated in weekly agile sprint meetings and contributed to version-controlled code via GitHub.

Company **Remote**
AI Quality Analyst *Aug 2024 – Present*

- Reviewed, proofread, and rated AI-generated responses across technical and general domains.
- Improved AI output accuracy by providing feedback on math prompts, coding solutions, and natural language understanding.
- Participated in iterative AI training loops ensuring high-quality user experience in AI-human interaction.
- Specialized in math problem solving, compiler design, cybersecurity prompts, and Java coding tasks.

CODTECH IT SOLUTIONS **Remote**
Machine Learning Intern *Jun 2025 – Jul 2024*

- Implemented machine learning models for classification and prediction tasks using Python, NumPy, Pandas, and Scikit-learn.
- Conducted data preprocessing, feature selection, and model evaluation using metrics like accuracy, precision, and F1-score.
- Developed Jupyter Notebook-based ML prototypes for internal tools and client datasets.
- Collaborated with senior developers and data scientists to fine-tune algorithms and improve model performance.
- Explored supervised and unsupervised learning techniques including Linear Regression, Decision Trees, and K-Means Clustering.

Plasmid Pvt. Ltd. **Remote**
Java Programming Intern *Sep 2024 – Nov 2024*

- Developed Java-based minor projects (Bank Management System, Hotel Reservation System, Chatbots).
- Applied object-oriented principles and implemented inheritance, polymorphism, and method overriding.
- Collaborated remotely with peers and mentor for project reviews and improvements.

LEADERSHIP EXPERIENCE

ACM, Tula's Institute **Dehradun, Uttarakhand, India**
Tech Lead *Sep 2024 – Present*

- Appointed as the founding Tech Lead for the official ACM Student Chapter at Tula's Institute.
- Leading the technical team in planning and executing coding events, hackathons, and workshops aligned with ACM's global mission.
- Mentoring peers in domains such as Data Structures, Algorithms, Web Development, Machine Learning, and Competitive Programming.
- Coordinating with faculty and student teams to build a strong tech community culture and promote research and innovation.
- Managing the chapter's GitHub repositories, project workflows, and web presence including official portal and event pages.
- Conducting sessions on Git, version control, and project collaboration tools for junior members.

Hostel Committee, Tula's Institute **Dehradun, Uttarakhand, India**
Secretary *Sep 2024 – Present*

- This section is optional if you have various leadership experiences and other activities you want employers to know. By having multiple sections, it allows you to emphasize your most relevant experience.
- Positions within this section should be formatted similar to previous experience sections, including bullet points if necessary.
- You may also include work experiences that may not be directly related to the job/internship you are applying to, but add to your credibility by exemplifying your past work experiences.

Web3 Cryptoholic Community **Dehradun, Uttarakhand, India**
Core Team Member *Aug 2024 – Present*

- Co-organized blockchain education events and collaborative learning sessions for over 100 core members.
- Designed visual material and promoted student participation in Web3 initiatives.

Hackathons Organized **Tula's Institute, Dehradun, Uttarakhand, India**
Core Organizer Team Member

- **"HackTheFuture 1.0"** – Tula's Institute, March 2025
- **"HackVerse"** – led coding hackathon, October 2024

Certifications & Workshops

- **Frontend Developer (React)** – HackerRank
- **Angular (Intermediate)** – HackerRank
- **Python (Basic)** – HackerRank
- **Advanced Python Programming** – ICT Academy, Tula's Institute
- **Java Programming Internship Certificate** – Plasmid
- **Network Automation Workshop** – Tula's Institute
- **Database Administration Add-on Course** – Tula's Institute
- **Cybersecurity Foundations Certification**
- **Web3 Foundations Workshop Certification**
- **SQL & DBMS Crash Course** – Online Completion
- **Best Community Service Award** – Tula's Institute
- **Student Volunteer's Coordinator** – IEEE, Tula's Institute

SKILLS & INTERESTS

SKILLS:

- **Languages & Frameworks:** Java, JavaScript, Python, C (Basics), SQL, HTML, CSS.
- **Tools & Platforms:** Git, Cisco Packet Tracer, MySQL, DaVinci Resolve, WordPress, Visual Studio Code, Postman, Google Collab, Canva,
- **Concepts & Domains**: OOP (Inheritance, Polymorphism), Database Design, RISC vs CISC, IP Spoofing, CIA Triad, Web3 Fundamentals

INTERESTS:

- Building Projects (AI/ML Models, system boost softwares, Chatbots, Reservation Systems, Banking Systems, etc.)
- AI & Proofreading Models (Plowman RLHF)
- UI/UX, Web3, and Community Engagement.
